

Businesses Can't Plan For Everything. But Preparis Can Prepare Yours For Anything.

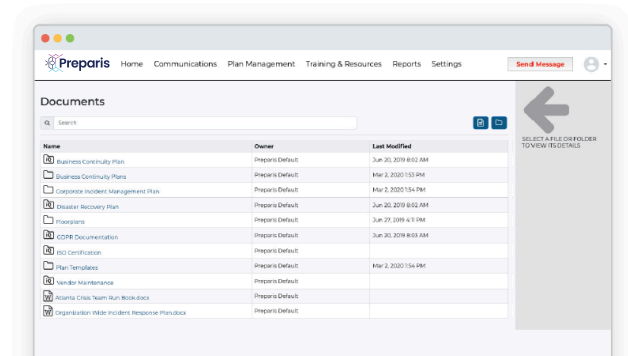

Form a Plan That Makes Sense for You

Preparis Planner has been developed for professionals in charge of building a business continuity plan. Unlike other options that may include expensive consultants, complex and costly software, or labor- and time-intensive processes, Preparis Planner provides a simple tool to make business continuity planning achievable for any size organization.

What Is Preparis Planner?

Preparis Planner is a business continuity planning and preparation tool that streamlines, simplifies, and supports your business continuity (BC) management process. Access Preparis's 30+ years of historical data and knowledge to help you develop, execute, and share BC strategy documents. It's like having an embedded consultant at your side to guide you and ask the right questions about your business to create a custom-made business continuity plan (BCP).

Directly through Preparis, your organization gets anytime, anywhere access to its business continuity strategy, allowing you to:

- Quickly adjust to organizational changes
- Streamline planning and training
- Support business continuity metrics' development
- Drive business continuity program commitment, innovation, and advancement

The only integrated business continuity solution in the market that helps you plan, train, test, and alert—all in one.
